

## Training Facilitation:

*Training, mentoring, capacity-building, Log Frame, e-skills and Leadership Skills*

Visioning, training and mentoring frequently forms an essential part of many of our projects

We have conducted a wide range of training, mentoring and capacity-building sessions:

### **Training:**

- Establishing legal frameworks:
  - Legal entities, contractual arrangements and agreements
  - Service Level Agreements, Joint Ventures, Special Purpose Vehicles and partnerships
- European Funding and Co-financing:
  - Background to European Funding and Co-financing arrangements
  - Regulations affecting Co-financing delivery
  - Public procurement, open and competitive tendering and OJEU Notices
- Responding to the tender process:
  - Tender Readiness Audit – understanding the structure of the policies and procedures needed to demonstrate competence
  - Understanding tender specifications - activities, outputs and quality standards required
  - Project design - innovation and relevance
  - Describing sound contract monitoring systems, and management information systems
  - Assuring the quality of the learning experience: Common Inspection Framework etc.

### **Log Frame (Logical Framework) Methodology**

We frequently hold project planning workshops, to support clients in developing their projects using the "Log Frame" methodology:

- We facilitate structured creative idea generation sessions in order to help further develop your vision
- Using the Log Frame methodology, we help you develop your project with a logical structure, from: Vision, goal, purpose, objectives, expected results, activities, measurable indicators, assumptions etc.
- This logical framework enables the development of meaningful schedules and budgets.

### **Mentoring:**

We frequently facilitate capacity building sessions and offer structured mentoring for our clients, either: one-to-one, in small teams, or to larger groups.

We are able to provide a comprehensive training service tailored to your organisations needs.
