

Project Websites:

We have worked with a number of clients on the development and administration of their project websites:

Mixlance Technical Services – REF Project Website

Richard developed and administered Mixlance's REF Project website: www.mixlance.com/LIFE

East of England Development Agency – Eastspace platform

Richard Jones led an inter agency team that developed the specification for a regional platform to host a self-building website facility for not-for-profit organisations in the East of England. Richard developed a project to promote the use of the eastspace platform to rural communities and not-for-profit organisations in South Cambridgeshire district.

In addition Richard built, maintained and administered a number of websites on the eastspace platform:

- **East of England Telematics Development Trust – EETDT website**

Richard developed and administered the EETDT website

- **e²eResearch Limited – e²eResearch website**

Richard developed and administered the e²eResearch website

- **Intercommunale Leiedal – LoG-IN Project Website**

Richard developed and administered the LoG-IN Project website

- **South Cambridgeshire District Council – Broadband Networking Project Website**

Richard developed and administered the SCDC Broadband website

We are able to provide a comprehensive project website tailored to your project's needs.
